# HOW TO BE SAFE ON THE INTERNET

Internet has become quite inevitable, may it be for finding or spreading information, for networking,for entertainment... Yet, it is not a safe space, neither for young people nor adults as we have seen it!

## **Project:**

Create a toolkit for young people aged from 6 to 15 years old addressing various issues around being safe on the internet  
All age groups targeted because safety on the internet should be addressed at every age

## **Target audience:**

Scout leaders and guides from WOSM and WAGGGS who want to work with their groups on increasing awareness and better understanding of online safety among children.

# Activities programmed

## Cubs (7 to 11 years old):

- Track game: labyrinth the payer needs to pass through, facing different challenges (questions) on online safety
  - Symbolic framework “Dora and the cyber scouts”
  - In the live version the labyrinth can be built from different materials (be creative - make the labyrinth your own).
  - In the online version it can be a platform like Gather or Topia. The challenges may be placed at different positions in the virtual world
- 

## Scouts (11 to 15 years old)

- Online learning
- 5 case studies
- Online version of the labyrinth could also be another tool
- General rules on catfishing, cyberbullying

# Activities programmed

## **Venturers/Explorers/Pionniers (15 to 18 years old)**

Online modules; peer group projects presented to the rest of the groups

Topics covered:

- catfishing
- cyberbullying
- free from appearance-based anxiety
- fake news
- revenge porn
- use of social media

**Thank you for your attention!**

**Any inputs are welcomed :)**
